The use of Cookies

The Ferrovac GmbH website uses “cookies” to help you personalise your online experience. A cookie is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to run programmes or deliver viruses to your computer. Cookies are uniquely assigned to you and can only be read by a web server in the domain that issued the cookie to you.

One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the web server that you have returned to a specific page. For example, if you register with the Ferrovac GmbH site or services, a cookie helps Ferrovac GmbH to recall your specific information on subsequent visits. This simplifies the process of recording your personal information, such as billing addresses, shipping addresses and so on. When you return to the same Ferrovac GmbH website, the information you previously provided can be retrieved, so you can easily use the Ferrovac GmbH features that you customised.

Cookies enable the function of Google Analytics Software. This software helps us to take and analyse visitor information such as browser usage, new visitor numbers and response to marketing activity. That information helps us to improve the website and services, and to make our marketing campaign relevant. The data stored by these cookies can be seen only by the relevant team at Ferrovac GmbH and Google and never shows any confidential information.

You have the ability to accept or decline cookies. Most web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. If you choose to decline cookies, you may not be able to fully experience the interactive features of the Ferrovac GmbH services or websites you visit.

The security of your personal information

Ferrovac GmbH secures the personally identifiable information you provide on computer servers in a controlled, secure environment, protected from unauthorised access, use or disclosure.
